

We Cannot Eliminate Tuberculosis Without You

Please join us for Middlesex County World TB Day Observance

The TB community mission is working towards elimination of this disease. Triumph over this disease will require community providers to partner with public health programs in treating latent TB infection (LTBI).

The objectives of this conference are:

- Provide education on diagnosis and treatment of LTBI in children and adults
- Share New Jersey TB data to help identify high and low-risk areas and populations
- Discuss reporting requirements and guidelines for TB suspects and cases

March 18, 2020 from 8:00 am-1:00 pm
Middlesex County Community College
2600 Woodbridge Ave, Edison, NJ 08837
