TB Survivor & Activist

Provided By
The New Jersey Medical School Global Tuberculosis Institute at
Rutgers, The State University of New Jersey

*This activity is supported by an educational grant from the Centers for Disease Control and
Prevention, Division of Tuberculosis Elimination*

The Global Tuberculosis Institute is the tuberculosis Regional Training and Medical
Consultation Center for the northeastern United States

COURSE DESCRIPTION & OVERALL GOAL

This interactive training will address key aspects of TB case management from a nursing perspective, including cultural competency, assessing and improving adherence, TB contact investigations, working with special populations, managing complications of TB treatment and incorporating nurse case management skills as part of patient-centered TB care. The format includes pre-recorded lectures for self-paced learning accompanied by three live web-based sessions with discussions and case studies.

WHO SHOULD ATTEND

Enrollment is limited to registered nurses who are responsible for providing TB case management for patients with TB infection and disease.

WHY COURSE IS NEEDED

As the incidence of tuberculosis continues to decline, maintaining clinical and public health expertise in this area is particularly challenging. Therefore, ongoing training and education are important for healthcare providers to enhance skills in nursing assessment, problem solving, case management, and enhancing adherence.

OBJECTIVES

At the conclusion of this activity participants should be better able to:

- Explain the concepts of tuberculosis case management in order to utilize an appropriate case management system
- Apply concepts of cultural competency to provide patient-centered TB care.
- Integrate case management of patients with co-morbid conditions and special circumstances to promote continuity of care.
- Use a case management plan to document care practices and plan for future needs.
- Develop approaches for addressing challenges in the management of patients with tuberculosis to ensure adherence.
- Define the nurse's role in contact investigations, including evaluation and treatment of identified contacts.

PLANNING COMMITTEE

Global TB Institute at Rutgers
Newark, NJ

ACTIVITY DIRECTOR

Anita Khilall, MPH

Program Director, Education & Training

MEMBERS

Arpita Jindani, MA, MSW

Health Educator

Patricia Woods, RN, MSN

Trainer & Consultant, Clinical Programs

ACTIVITY SCHEDULE

This course is a combination of recorded and live lectures all done via the Internet. Pre-course activities must be completed prior to the live course dates to which they pertain.

Pre-Course (Offline) Oct 27th	Format
How to Navigate Sakai	Instructional video
Review chapters 2-3 of TB Nurse Case Management Self-Study Modules	PDF
Overview of TB Nurse Case Management	Recorded lecture
Course Overview and Expectations	Recorded lecture

Homework Assignment	Sakai (learning management system)
November 3	
Staff and Participant Introductions	
Refugee Health Case Study	Live lecture
TB Survivor Perspective	Live lecture
Tools of Case Management	Live lecture
Group Discussion: Patient-nurse Interaction	Live discussion
Homework Assignment	Sakai (learning management system)
November 10	
Homework discussion	Live lecture with polling question
TB Contact Investigations: The Nurse's Role	Live lecture
Assessing & Improving Adherence	Live lecture
Pediatric Case Study Case Study	Live lecture
Homework Assignment	Sakai (learning management system)
November 17	
Homework discussion	Live discussion
Ask the Expert:	Live discussion
Working with Patients in Special Circumstances: Substance Abuse Case Study HIV Case Study	Live lecture
Managing Complications of Treatment	Live Lecture
Closing	Live discussion
Evaluation Survey	Web link

COURSE REQUIREMENTS

Enrollment is limited to TB nurse case managers who have a working knowledge of TB. Participants must be familiar with all aspects of TB disease and infection as outlined in the CDC *Core Curriculum on Tuberculosis: What the Clinician Should Know*.

This course will be conducted as three live 90-minute sessions occurring over three weeks with pre-course work and homework assignments. In order to apply for this course, **participants must be available for all three live dates, must view recorded lectures and complete homework assignments. Supervisor approval will be required.** Course certificates will only be issued if these requirements are fulfilled.

Technical requirements

Internet Browser: Access to high-speed internet using any of the following browsers:

- Microsoft Internet Explorer
- Mozilla Firefox
- Google Chrome

Sound:

- Telephone for participation in live, web-based sessions November 3, 10 and 17, 2016)
- Computer with speakers, earphones, or headset to hear the audio for pre-recorded sessions

REGISTRATION INFORMATION & FEE

Registration for this course is now closed. If you wish to be placed on a waiting list, please send an email to patty.woods@rutgers.edu.

This course is free of charge.

CONTINUING EDUCATION CREDITS

Rutgers Biomedical and Health Sciences is accredited by the American Nurses Credentialing Center (ANCC), the Accreditation Council for Pharmacy Education (ACPE), and the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing education for the healthcare team.

NURSES: This activity is awarded 7.2 contact hours (60 minute CH).

CANCELLATION INFORMATION

We reserve the right to modify the activity content, faculty and activities, and to cancel this activity, if necessary. *If you are unable to attend, please inform us as soon as possible so that others may be accommodated.*

For additional program information, or if you require special arrangements to participate in this activity, please contact Patty Woods at (973) 972-0978 or send an email to patty.woods@rutgers.edu.
