

Managing Clients with Co-Occurring Health Concerns

The 2nd in a Case Studies Webinar Series

Brought to you by: The Federal Training Center Collaborative: Atlantic Region

When: Friday June 22, 2012

Faculty: Dr. Maunank Shah

Time: noon—1:00 pm

Fee: Free to all

Program Overview:

The purpose of this webinar is to increase participants' understanding, knowledge and management of co-occurring disorders, with an emphasis on TB and HIV. Through his case presentations, he will also address STDs, Addiction, Hepatitis and family planning.

Objectives: Upon completion of each webinar, participants should be able to:

- ◇ List two benefits from screening clients for co-occurring disorders
- ◇ Describe appropriate management for the client with co-occurring disorders

About the Presenter

Dr. Shah is Assistant Professor at Johns Hopkins University, Division of Infectious Diseases in the Department of Medicine. His primary effort is spent engaged in implementation science and clinical research activities involving HIV/TB diagnosis in resource-limited settings. In addition, Dr. Shah is a Clinical Instructor at Johns Hopkins University and Medical Director at the Baltimore City Chest Clinic.

Audience

This webinar series has been designed for physicians, other clinicians, nurses, counselors, educators, case managers, and intervention specialists working in family planning, addictions, TB/STD/HIV agencies, and other programs. **During this webinar, Dr. Shah will focus on working with mature adults.**
